- Access to other SSAT Networks, eg. Specialism Networks

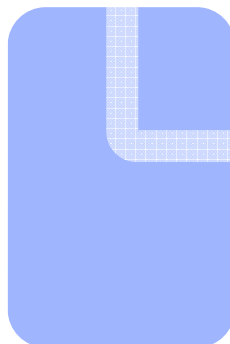

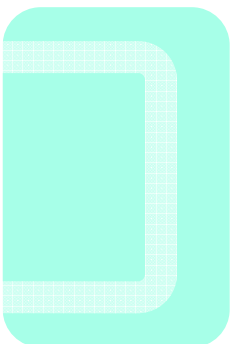

International Networking for Educational Transformation is an international arm of the Specialist Schools and Academies Trust (SSAT) in England.

It follows that affiliation to iNet provides membership of one of the world’s leading school networks.

This offers multiple opportunities for educators to find out about and draw from high quality teaching and learning.

Affiliation offers

- opportunities to build an international dimension to your school curriculum and to develop global citizenship
- facilitated national and international links and partnerships between schools to raise achievement for students around the world
- access to international conferences and events, development and research, study tours, online discussion forums, publications and international professional development
