Colin Schot

Principal, Warringa School

2008 Education Excellence Award recipient

Technology & Special Education:
*Using Web 2 Tools in the 21st Century
Special Education classroom*

Overview

Input, discussion and display of technology and associated effective practices for enhancing learning opportunities for students with additional learning needs. Powerful tools to support students in reading, writing and maths everyday technologies as well as specialised learning tools will be examined. Colin Schot brings with him the transformation of two schools and up-to-date information from a recent Study Tour to England which included a Web 2 Technology Conference.

Kerry Woods

Research Fellow, University of Melbourne

Assessment Research Centre

Accurate & Authentic Assessment:
Students with Additional Learning Needs

Overview

Hear how the data from accurate and valid assessment of students with additional learning needs translates into authentic learning. Kerry Woods, a Research Fellow at the Assessment Research Centre at The University of Melbourne comes highly recommended as a learned and entertaining speaker on the subject of valid assessment of students with additional learning needs and how that informs effective learning and teaching practice. She will highlight an assessment tool she has worked on at the centre.
