

# Raising Achievement Transforming Learning (RATL) for Special Schools

**1 year program** (commencing at regular intervals)

**Cost:** \$4000 + GST per year

This 1 year project is for school leadership teams who wish to transform an agreed area or areas of practice in their schools in order to result in improved outcomes for students. These are a number of whole group seminars each year with leading educator presenters as well as personalised support and school visits from iNet staff and links with international schools.

## WHY PARTICIPATE IN RATL?

- Are you interested in leading the raising of achievement and improving engagement in your school?
- Would you like to benefit from working in close collaboration with leaders in schools in Australia and England?
- Can you see the benefit of leading in an exciting school improvement project directly supported by leading academics and researchers?

## How will my school benefit from RATL?

School partnerships will develop strategies that will be tailored to their individual needs.

### Some of these strategies include:

- Utilising data for target setting
- Empowering students in the learning-teaching interface
- Formalising mentoring and coaching
- Implementing more personalised learning
- Transforming curriculum structures
- Incorporating parental and community involvement

### These strategies have been proven to increase student performance.

Schools will engage in strategic partnerships with other schools committed to raising achievement and transforming their learning environments.

Schools will have ongoing support to realise their aims and have access to practical as well as helpful online services and tools.

Please contact Sue Dixon for more information about the program on 03 9654 1361 or email [sdixon@sst-inet.com.au](mailto:sdixon@sst-inet.com.au)

REGISTRATION FORM

RAISING ACHIEVEMENT TRANSFORMING LEARNING (RATL) FOR SPECIAL SCHOOLS

1 year program
